	Where are these numbers from	m?					
	Cathy Covert compiled and totaled the votes that each legislator cast for spending increases and decreases during the						
	course of the Expanded Budget Committee meetings. The County Administrator's budget was taken as a baseline, and						
	the chart totals the votes cast to increase or decrease from that budget. When there were multiple votes to increase or						
	decrease by various amounts (as in adding one, two, or three deputies to the Sheriff's department) each legislator was						
	credited with the largest addition or cut they supported. When a vote was revisited later, the last vote was the one counted.
